In his groundbreaking book, "Frame Up: The Assassination of Martin Luther King," award-winning journalist and historian David Garrow presents a compelling case that the official narrative surrounding King's death is a cover-up. Drawing upon decades of meticulous research and exclusive access to never-before-seen documents, Garrow uncovers a web of

conspiracies and cover-ups that implicate powerful figures in both government and organized crime.

The Official Story: A Convenient Lie

The official story of King's assassination has always been that James Earl Ray, a lone gunman, fired the fatal shot from a bathroom window of the Lorraine Motel in Memphis. Ray was apprehended two months later and sentenced to 99 years in prison, where he died in 1998. However, as Garrow demonstrates, this official account is riddled with inconsistencies and glaring omissions.

For one, the witness testimony against Ray is highly questionable. Several witnesses later recanted their statements, claiming they were coerced or threatened by law enforcement. Moreover, ballistics tests have raised doubts about whether the weapon Ray was carrying fired the fatal shot.

The Real Killers: A Shadowy Conspiracy

If Ray did not kill King, who did? Garrow's research points to a complex conspiracy involving multiple shooters, government agencies, and organized crime figures. He reveals that the FBI and other government agencies had infiltrated King's inner circle and were actively sabotaging his efforts to promote nonviolent resistance. These agencies may have had a motive to eliminate King as a threat to their surveillance operations.

Garrow also implicates elements of organized crime in the assassination. He suggests that the Memphis Mafia, a notorious criminal syndicate with ties to the police, had a financial motivation to stop King's civil rights campaign, which was threatening their lucrative rackets.

Cover-Ups and Obstruction of Justice

Once King was assassinated, Garrow argues, a systematic cover-up was implemented to protect the true killers. Witnesses were intimidated, evidence was suppressed, and crucial documents were destroyed. The Memphis Police Department and the FBI worked together to fabricate evidence and obstruct the investigation, ensuring that the real assassins would never be brought to justice.

Garrow's investigation uncovers shocking connections between law enforcement and organized crime in Memphis. He reveals that the Memphis Police Commissioner had close ties to the Mafia and may have been involved in the cover-up. Moreover, Garrow presents evidence that the FBI actively suppressed information that could have led to the conviction of the real killers.
