The Korean Peninsula has been on the brink of nuclear war for decades. North Korea has conducted six nuclear tests since 2006, and has threatened to use its nuclear weapons against the United States and its allies. South Korea and the United States have responded by increasing their military presence on the peninsula, and by developing new weapons systems to counter the North Korean threat.

Korea On The Brink tells the story of this crisis, from the first North Korean nuclear test in 2006 to the present day. Written by veteran journalist Suzanne Scholte, the book provides a comprehensive account of the events that led to the crisis, the key players involved, and the potential consequences of a nuclear war on the peninsula.

Scholte has spent years reporting on the Korean Peninsula, and she has a deep understanding of the complex issues involved in the nuclear crisis. In **Korea On The Brink**, she provides a clear and concise account of the events that have led to the current crisis, and she offers a sobering assessment of the potential consequences of a nuclear war.

The book is essential reading for anyone who wants to understand the Korean nuclear crisis. It is a well-written and informative account of one of the most dangerous threats to global security.

Reviews
