### By Gordon Williamson

The Waffen SS On The Western Front 1940-1945: Images of War provides a unique insight into the day-to-day life of the Waffen SS on the Western Front, from the bitter fighting in the Ardennes to the final collapse of the Third Reich.

Drawing on a wide range of sources, including previously unpublished photographs, this book tells the story of the Waffen SS on the Western Front through the eyes of the men who fought there. We see them in training, in combat, and in the aftermath of battle.

The book also examines the Waffen SS's relationship with the Wehrmacht and the civilian population. It explores the Waffen SS's role in the Holocaust

and other war crimes. And it assesses the Waffen SS's legacy as a fighting force.

The Waffen SS On The Western Front 1940-1945: Images of War is a must-read for anyone interested in the history of the Waffen SS, World War II, or military history.
